

MAKE MONEY ON U. S. ARMY CARS

American Automobiles, After Service in War Are Sold to Londoners at More Than Cost.

London.—(Correspondence of the Associated Press.)—American army motor transport in England has not cost the United States government anything for machines, according to figures prepared at army headquarters here. Astonishing prices have been paid here for machines the army has placed on auction, touring cars in scores of instances bringing more than the original cost even though they have been rather hard usage for months.

The army purchased a number of cars of a light popular type for \$450 each and these have been sold for as high as \$1,000 after being used eight months. Another machine the average purchasing price for which was \$1,085 has brought as much as \$1,800 at the auction sales. The prices bid for touring cars has been absolutely amazing. Major J. C. Weller, head of the motor transport work in the quarter master department here, told the Associated Press, a great deal higher than we would have dared asked on straight sales.

Altogether the army had 592 touring cars, trucks, ambulances, motorcycles and bicycles for its work transporting about 1,000,000 men through England. Only a dozen of these have been reserved to be used in the final clearing out of headquarters in London. Good prices have been obtained for the trucks and ambulances, exceptionally good prices when compared with what second-hand motors bring in the United States, but the greatest demand has been for the touring cars, motorcycles and bicycles.

England never did build such vehicles in quantity and during the war none were built for private use. Now the demand is so great that actual values have been almost discarded entirely.

Some observers place this demand in the same category with the insatiable desire of women for the finest finery at unprecedented prices which even then the shops cannot supply, or other luxurious demands of people who would hardly have thought of such things before the war.

FRIENDS FAIL TO RECOGNIZE HIM

Farmer Was So Built Up By Tanlac That He Looks Like Different Man.

"There's been such a remarkable change in me that my friends, who haven't seen me since I began taking Tanlac, don't know me on first sight," was the statement made by William Porter, a well known farmer of Hanna City, Illinois, R. F. D. No. 2, while in the Suttell & Case Drug store at Peoria, recently.

"So many of my neighbors were telling me how well I'm looking these days," he continued, "that I got on the scales to see how much I had gained in weight and was surprised myself to find that I actually pull down 43 pounds more than I did the day I started on Tanlac—going up from one hundred and seventeen pounds to one hundred and sixty pounds. Why, even my wife has been astonished and says she can't understand how a medicine could do what Tanlac has done for me.

"My stomach had been all out of whack for sixteen years and, as nothing ever helped me, I had about come to the place where I was ready to quite trying. Many a time after eating I have had such awful cramps in my stomach that I thought I would die. I would swell up with gas, and I would be so dizzy for hours that my head seemed to be spinning around like a top, and I couldn't walk. I finally got so I was afraid to eat anything except something very light, as anything the least bit heavy would bring on one of those terrible spells of cramps. I couldn't sleep but little at night, my days were worn out in the mornings, and what little work I did on the farm was a drag to me. I would be so weak and played out by the middle of the day that my knees would knock together as I walked. I was constipated all the time, had sick headaches, and was so nervous, weak and miserable that I just felt like giving up the fight.

"During those sixteen years I spent close to three thousand dollars for treatment and medicines, but nothing ever helped me until I got Tanlac. I was so discouraged that I couldn't see any hope of ever getting better. One day I said to my wife: 'Do you reckon this Tanlac I read so much about, would help me?' So we talked it over and I got a bottle. Well, what that bottle and nine others together have done for me has astonished everybody that knew my condition. Why, I don't feel like the same man and look so different that I have to stop my friends who haven't seen me in sometime and tell 'em who I am. Things that used to nearly kill me when I ate them don't hurt me now a particle. I sleep like a log every night—never wake up until the birds begin singing around the house—and I feel like a boy again, full of life and energy. I hop out of bed in the mornings hungry as a bear, eat more breakfast than I used to eat all day, and go to work feeling fine, and can do as big a day's work as I ever could in my life. I am now as strong and well as anybody and I believe Tanlac will do the same thing for anyone else in the same fix I was."

Tanlac is sold in Rock Island by Bengston's Drug Store.—(Adv.)

FRENCH PLAN TO WRECK MONUMENT TO AVENGE BURNING OF FLAGS BY HUNS

German national monument on the Niederwald.

The German national monument on the Niederwald in the French area of occupation is marked for destruction by the French deputies, to punish German pride and to answer for the burning of the French flags of 1870.

QUARTER BILLION FOR ROADS TO BE BUILT IN COUNTRY

Recent reviews of the road building situation in the United States sent out by the United States department of labor, have brought many reports of new projects to the information and education service of the department.

There are now available for use between now and 1921, for state roads, funds to the amount of \$266,750,000. For the present fiscal year there is available \$77,600,000, but this amount obtainable from the federal government for 1919 is small compared with the appropriation involved in plans now being carried forward in all parts of the country, since projects in 18 states total \$755,000,000. These figures representing expenditures expedient in the immense area covered by the United States, give promise of great industrial expansion.

NOT TO NAME PARK PERSHING'S HONOR

General Pershing is not to have a park in New York named after him, or at least he is not to have the honor of having the former site of the old Grand Union hotel at Park avenue and Forty-second street bear his name. The board of estimate has approved a report of the finance and budget committee disapproving of the transfer of this site from the public service commission to the park department.

The report of the finance committee stated that while the designation of this site as a public park to be named in honor of General Pershing was a fitting and proper thing to do, no provision of the rapid transit act had been found that would permit any such use of the property.

Correct Shoes for Men and Women
At Forsberg's Walk
Over Boot Shop
415 Fifteenth Street, Moline
Dr. Scholl's Foot Comfort Service for Men and Women
